Abstract (en)

[origin: WO2008077713A1] The invention relates to a rack guide rail (1) for attaching a receptacle which can be withdrawn from a container, in particular a dish rack which can be withdrawn from an interior of a dishwasher, comprising a rail body (2) which can be connected to the receptacle, and the rail body (2) can engage with at least one running roller (20), in particular with a running roller (20) which is arranged in a washing area of a dishwasher. The invention is characterized in that the rail body (2) has at least one cutout (12) which extends transverse to the direction of movement of the withdrawable receptacle and is designed to engage with the at least one running roller (20). The invention also covers a dishwasher comprising at least one rack guide rail according to the invention.
