Abstract (en)
[origin: WO2008030906A2] A food product container includes a base and a cover. the base includes an opening, a top, and a bottom. At least one wall extends between the top and the bottom to define a container volume with a height, a width, and a depth. The depth is smaller than the height and the width. The cover is connected to the base and disposed over the opening. The cover includes a dispensing opening. A plurality of food products is disposed within the container volume. The length of the food product is greater than the depth of the container volume.
