Abstract (en)  
Corkscrew (C) having a handle (M) that is made from a single piece, by a suitable metal sheet, preferably of steel, properly processed by shaping and consequent appropriate folders at the end to achieve a posterior part(P)of it which is a section as possible curvilinear, almost "elliptical", and in its (P) lower part has the bottom free from protrusions or bumps, but that can be possibly flat in order to improve the ergonomic features.
