Abstract (en)

[origin: EP2107172A1] The tank (1) has a side wall (3) including an upper support platform (9) periodically arranged along a side of a bottom wall (2). A connection wall (30) connects the upper support platform to a lower support platform (8), while leaving open a passage for water. The connection wall has an internal portion connecting a side of the bottom wall to an internal side of the lower support platform. An external portion of the connection wall extends from an external side of the upper support platform. Prehension handles are incorporated to the bottom wall.
