Abstract (en)

[origin: EP2107199A2] The fitting has running gears (26, 28) and a locking device for lower and upper drawing arms (18 - 24) present in a parallel stoppage position. The drawing arm (18) is lockable in a closing condition of a flank (14) by using a control arm, and a catch element of the control arm is engaged in a locking recess. The locking recess is mounted in a fixed frame (10). The control arm is penetrated over a guiding bolt relocatably guided in a control groove.
