Abstract (en)

[origin: WO2008086581A1] A table tennis net to divide a playing surface into two regions by extending across the table surface; said net including a first centre zone to extend a selected substantially constant net height across the centre part of the table; transition zones to each side of the centre zone to respectively extend outwardly toward the table edges and provide a region of increasing net height toward the table edges; and outer zones joined to each of the transition zones extending outwardly beyond the respective table edges and below the playing surface.
