Abstract (en)

[origin: EP2110214A2] The hand-tool machine (10), particularly chain saw (11), has a tool holder (12) for holding a tool (13) for processing a workpiece. A clamping unit (30) is provided with two clamping bodies (31,32) that are pivoted related to each other. The two clamping bodies have an actuation device (45) with an actuation body (46) for actuating the clamping bodies to an inner clamping movement (37) running relative to each other. The actuating body acts on a clamping body in an actuating force direction.
