Abstract (en)  
[origin: EP2110326A1] Feeding device comprises electrical control units arranged in a base unit (1) in a dust-free closed region. An independent claim is also included for a base unit with an integrated control box for the feeding device. Preferred Features: The device has a transfer unit with a filling shoe unit (16) and a sorting device with a blocking slide unit (11) and filling tubes. The dust-free closed region with the electrical control units is arranged in an integrated control box in the base unit.
