Abstract (en)

[origin: EP2110506A1] Closure comprises a flat trim made from a fire retardant and/or heat insulating material having pockets (12) arranged directly next to each other in an overlapping manner. An independent claim is also included for a roller door with the above closure. Preferred Features: The trim has several layers joined using adhesive or seams (14). At least one layer is made from a fire retardant and one from a heat insulating material. The closure is flexible. The trim has longitudinal sides with a guiding element.
