Abstract (en)  
[origin: WO2008100215A1] The present invention relates to delivery furniture (10) comprising a support (11, 12) for supporting a pregnant woman during labour. The delivery furniture (10) further comprises at least one movable means (16, 17) being biased in at least one direction and being provided with an abutment portion (18, 19), wherein the biased means (16, 17) is operable by a pregnant woman through the abutment portion (18, 19) to provide an increased movement of the woman and dynamic activation of her muscles.
