Abstract (en)

[origin: WO2008096331A1] A tampon having an improved aspect ratio is provided. The tampon includes a self- sustaining, fluid-expanding, compressed absorbent pledget having one or more absorbent materials. The tampon has a width, a thickness, and a length. The width can be greater than the thickness and an aspect ratio of the width to the thickness can be from greater than about 1.4: 1 to less than about 2.0: 1. Also provided is a method of positioning a tampon within a vagina of a woman.
