Abstract (en)

[origin: WO2008092794A1] The invention relates to a measuring tube (2) for any flow meter (1) that determines or monitors the volume or mass flow rate of a medium (11) flowing in a pipe (33). A powder-coatable plastic is applied as a primer (17), liner (18), or protective layer (28) for a liner (18) at least in the area of the internal surface of the measuring tube (2) through which the medium (11) flows.
