Abstract (en)
The nozzle has a surface with a part provided with a fitting, which reduces settling of microorganisms. The fitting is provided at nozzle surfaces of the nozzle made of plastic, where the nozzle surfaces are turned towards a surface to be sucked or are brought in contact with the surface to be sucked during suction. The fitting comprises a material, which has biocide effect. The fitting comprises a surface coating, where the coating or a material component of the nozzle is based on a hybrid complex material e.g. silver, silver compounds, copper or copper compounds.

Abstract (de)
Die Erfindung betrifft eine Saugdüse für Staubsauger. Erfindungsgemäß ist zumindest ein Teil der Fläche der Saugdüse mit einer Ausrüstung versehen, die das Ansiedeln von Mikroorganismen reduziert.
