Abstract (en)

[origin: EP2116667A2] A method for making an aluminium section fitting (1) for floors comprises the steps of making a raw section fitting (1) by a die extruding operation, with a required shape and cross-section; coating the extruded fitting by a natural and/or pre-composite Veneer, a synthetic material, or a coating paper material (2); bonding the section fitting (1) and coating (2) by glueing; applying a protective paint; and finally applying a temporary clear protective film (4).
