Abstract (en)
[origin: EP2116688A2] A simplified clamping system for attaching pendant glass panels to an overhead drive (3) has the panels gripped at the top corners/edges by pairs of main clamping plates (11) secured by screw fasteners. The couplings (10) to the drive belt (8) locate into slots in the top edges of the clamping plates and are secured by the same screw fasteners. The main clamping plates are suspended under wheeled supports (4).
