Abstract (en)

[origin: MX2009008236A] Reactive compositions are formed into melt processable reactive pellets. The reactive compositions include at least one filler such as talc, clay, pulp, etc. and a reactive mixture comprising at least one polyhydric alcohol and a reactant selected from the group consisting of at least one organic polyacid; at least one organic anhydride; and combinations thereof. Alternatively, the reactive compositions comprise at least one filler and a prepolymer formed from the reactive mixture.
