Abstract (en)
[origin: EP2119831A1] The finisher (1) has a material bunker (5) for a road-construction material, and a spray jet module (8) arranged at a chassis (3) adjacent to a driver's cab (4). A reservoir unit (12) having a spray medium-storage container (10) for a spraying medium e.g. binder, and a storage container (11) for the material is arranged in the bunker in a fixable and detachable manner. The container (10) has a heating unit e.g. burner, and a pump, and a control unit controls the heating unit and the pump, where the pump automatically supplies the medium to a main spray reservoir from the container (10).
