Abstract (en)

[origin: FR2910371A1] A compacting plate (7) presses the waste contained in a storing container (A) positioned between four columns (2). A command board (19) has a going-down knob (20), an emergency stop knob (21) and a going-up knob (22), for controlling the compacting plate. An electrical board controls the command board and also ensures the setting on of a distributor (12) connected to a driving telescopic cylinder (6) fixed on a beam (3) supported on the columns. A hydraulic group (16) controls the electrical board, and a pressure relay (11) regulates the board.
