Abstract (en)

[origin: WO2008086868A1] The invention relates to a sterilization device (1) for bag packages, comprising a entry port (7), a shaping unit (11), a filling unit (13), an exit port and one or more suitable conveying and/or transport elements. The entry port (7) comprises a UV radiation device (8) or is substantially formed by said UV radiation device. Said UV radiation device emits pulsed radiation with high power.
