Abstract (en)

[origin: WO2008101521A1] The present invention relates to a method for the production of a printed plastic component, wherein the method comprises the steps of (a) deforming a plastic film or plate that is transparent or translucent at least in regions, imprinting the plastic film or plate deformed in step (a), and in-mold laminating the plastic film or plate imprinted in step (b). The invention further relates to a device for carrying out the method, and to a plastic component produced according to the method.
