Abstract (en)

[origin: WO2008112408A1] (I) The present invention relates to spiro (tetracarbon) substituted compound of Formula I, processes for their preparation, pharmaceutical compositions containing them as active ingredient, methods for the treatment of disease states associated with angiogenesis, such as cancers associated with protein tyrosine kinases, to their use as medicaments for use in the production of inhibition of tyrosine kinases reducing effects in warm-blooded animals such as humans.
