Abstract (en)
[origin: EP2128529A2] The muffle has a set of wall elements (11, 12) e.g. planar shaped wall elements, limiting an inner chamber serving as a cooking space, where the wall elements consist of glass or glass ceramics. The wall elements are connected with each other as a single piece and form a form part that is designed in a U-shape or V-shape. The wall elements exhibit a projection (17), retainer and recess that are molded in an inner surface (13) of the wall elements facing the inner chamber, where the wall elements are bent against each other.
