Abstract (en)

[origin: EP2130458A1] The fitting has an arm (4) and another arm pivotably supported at a cross bar (3) attached to a furniture part (2) of a furniture e.g. sitting furniture, at a condition. Ends of the arms lie opposite to each other, and are hinged at a furniture part (5), where pivoting movement of the arms is limited by a catch (11). The arms are connected with an additional arm (9) pointed in an opposite direction below an angle deviating from 180 degrees. The pivotable arms or the additional arm are connected to a side by a connection arm (10). The sitting furniture is converted into a sleeping furniture.
