Abstract (en)

[origin: EP2131119A2] The command unit has a tactile keyboard integrated in a digital tactile control unit (4) of capacitive sensors so as to estimate a smooth surface with a serigraphy having symbols on a proper right functional fairing (3) and in an ergonomic trace (40). The symbols are in the form of pictograms adapted to functions to be performed, and are associated with a small LCD screen (15), where all functions of a digital plate are recorded and displayed. The digital tactile control unit is arranged on the ergonomic trace.
