Abstract (en)

[origin: EP2133297A2] The method involves providing a drawer roller on a support arm (10) of a roll changer (1) for bringing the rotary printing press from an operating speed to standstill, so that a web (3a) comes to the standstill. The web is located on a working roller (3) which is arranged on another support arm (20) of the roll changer. A joining device (30) of the roll changer is provided on a joint position (FP) on the web of the working roller.
