Abstract (en)

[origin: WO2008125474A1] The invention relates to a dishwasher, particularly a household dishwasher, comprising a hydraulic system (2) and at least one top spray device (4), which is disposed above at least one washing product basket, particularly a cutlery drawer, and can be supplied with a washing solution by means of the hydraulic system (2), and further comprising a rotatable spray head (6), which is attached to the hydraulic system (2) by means of a cage (8). The invention is characterized in that the spray head (6) is supported rotatably in the cage (8). The invention further comprises a top spray device for installation in a dishwasher and a spray head and a cage for such a top spray device.
