Abstract (en)
[origin: WO2008121052A1] Drill template (1) intended to be used for the drilling of holes for fittings (hardware) and the like in both cabinet doors and the front of drawers, consisting of a template (2) and at least one to and from the template attachable and detachable movable appendage (3). The template (2) consists of a plate (4) which is along at least one of its long sides equipped with a protruding rib (spine) (5) and that the plate (4) is equipped with at least two holes (6), intended to be used for drilling a pair of holes for fittings such as handles, and at least one hole (7) intended to be used for drilling holes for fittings such as knobs which require only one drilled hole. The attachable and detachable movable appendage (3) is designed to be positioned in predetermined positions along the template's (2) length by the appendage (3) being attached to the essentially perpendicular tracks (11) in the plate (4).
