Abstract (en)  
[origin: EP2135831A1] Inside a car, a plurality of operation buttons are provided. Among all the operation buttons, a plurality of the operation buttons are set in control means as buttons for switching. The control means is switchable between a plurality of operation input modes. Control of the control means according to an operation of each button for switching differs for each of the operation input modes. Inside the car, a shift operation section is provided for switching the operation input modes when it is operated.
