Abstract (en)

[origin: EP2136032A2] The gas turbine has a multi-stage compressor unit (2). The compressor unit is assembled from individual, independent compressor modules (3,4,5). The compressor modules are supported on a drive shaft (1) in an independently rotating manner and are connected with the drive shaft by a coupling unit (9,10,11). The compressor module comprises a compressor stage with a rotor comprising multiple rotor blades and a stator comprising multiple stator blades.
