Abstract (en)
[origin: WO2008129139A1] Method for orientating preforms, in which method, in a first step, the preforms (5) are processed in such a way as to form at least one flow of preforms lined up in an approximately horizontal flow channel, the preforms being rotated as they leave this channel in a second step in such a way as to form at least one flow in which the preforms (5) are approximately vertical. Device for carrying out the method.
