Abstract (en)

The space has a flat removable opened floor (10) i.e. duckboard, including a raisable seat (20) whose base (22) is formed by a portion of the floor. The seat has an unfoldable mechanism (30) i.e. leg assembly, that connects the base to the rest portion of the floor. The seat has a fastener (35) that cooperates with the mechanism for maintaining the seat in a raised position. The mechanism and the fastener permit raising of the base at two different heights. Holes (241, 242) are arranged near respective edges (221, 222) of the base.

Abstract (fr)

L'invention concerne le domaine des espaces de douche. Un espace de douche est muni d'un plancher (10) sensiblement plan dont une partie au moins est ajourée, qui comporte un siège (20) relevable dont l'assise (22) est formée par une portion de ce plancher.
