Abstract (en)
[origin: EP2138305A2] The machine (2) has an object transfer device (22) including a conveyor belt for displacing an object (8) to be printed between conveyors (18, 20) and a turret (6). A printing device (13) for printing the object is placed at a printing post (12). Driving units (28) drive a part of the conveyor belt of the transfer device. The driving units are carried by frames (4, 5, 7), and the transfer device comprises a transmission element connected with driving arms.
