Abstract (en)

[origin: DE102008012380A1] The handle (100) has a fastening unit (20) for fastening of the handle at a housing (40) of a hand tool machine and arranged at a holding unit (10). A damping unit (30) is arranged at the holding unit in such a manner that the damping unit comes in contact with the housing during fastening of the handle at the housing. The damping unit is wedgable between the holding unit and the housing and formed of elastic material.
