Abstract (en)

[origin: WO2008125256A1] Single -use containment capsule (1) of powder of an aromatic essence for producing an infusion, characterised in that it comprises a container (2) having a perforated base (4) externally covered with a protective element (5), and a perforator element (6) present on the inner side of said protective element and operable by the fluid pressure that is created inside said container, so to permit the exit of said infusion from said container.
