Abstract (en)  
[origin: WO2008114294A1] The present invention relates to integral protective overalls (5) for operations on live high-voltage wires, comprising a first electrically conductive layer whose surface area is substantially equal to the surface area of the overalls (5) and that is obtained from a polymer fibre covered with silver. The overalls of the present invention can also include a second layer connected to the first layer in a stable manner.
