Abstract (en)

[origin: WO2008131966A1] The invention relates to a mounting fixture for fastening at least one device (6) for influencing the movement of a furniture part that is received on a stationary furniture part so as to be movable when driven. The invention is characterized by fastening means comprising elongate profiles (8a, 8b) that extend separately with a clearance in between them, to which profiles the device (6) for influencing the movement can be fastened.
