Abstract (en)

[origin: WO2008132285A1] A sauna stove and a method to be used for producing heat needed for bathing, the sauna stove comprising one or more reception elements (2a, 2b) to be heated and a heat source powered by gas energy. The heat source of the stove is arranged to produce infrared heat radiation, whereby one or more reception elements (2a, 2b) are arranged close to the heat source to heat the reception elements with the infrared heat radiation produced by gas energy.
