Abstract (en)

[origin: WO2008116714A1] The present invention relates to a method for the enantioselective production of optically active 4-hydroxy-2,6,6-trimethyl-cyclohex-2-enone derivatives of formula (I) or (Ia) and to a method for producing (3S, 3'S)-astaxanthin of formula (III), comprising a method for producing the compound of formula (I).
