Abstract (en)
[origin: WO2008135685A1] The invention relates to a partition panel (1) including a main panel area (2) representing the major portion of the panel surface (S), said main area (2) including a main layer (3) of a bullet-proof material and a panel stiffening structure (4) including a first stiffening layer (4a) extending along a first face of the main layer (3). The first stiffening layer (4) is of the cellular type (5) and the panel may include a layer of a skin-type material (14).
