Abstract (en)
[origin: WO2008135258A2] A toothbrush comprises a brush head made of a first plastic, at least one recess that is completely closed in the peripheral direction being configured in said brush head. In the recess a carrier body is arranged, which made of a second plastic that is more pliable than the first plastic. A set of bristles in the form of bundled bristles and/or individual bristles is provided on the carrier body.
