Abstract (en)  
[origin: CA2685521A1] A furniture grip for a front panel (2) has a housing (4) which can be mounted on a front panel (2) and on which a grip plate (5) is held. The grip plate (5) is spring mounted in the housing (4). After the grip plate (5) is pressed in, a ring (9) of the housing (4) can be gripped to open the front panel (2). The grip plate (5) thus encloses the housing (4) such that no contamination settles therein. In addition, an optically closed appearance is created.
