Abstract (en)

[origin: WO2008141716A1] The invention relates to a method for pickling hot-rolled silicon-steel strips (4) continuously moving in at least one pickling tank (20, 21, 22) containing a pickling solution (30, 31, 32). According to the invention, the pickling method comprises processing the silica formed in the pickling solution (30, 31, 32) using continuous filtration. The invention also relates to pickling equipment for implementing said method.
