Abstract (en)  
[origin: WO2008145934A1] System for managing rights of access to avionic applications and data and method implemented by this system. The invention relates to a system for managing a user's rights of access to avionic information, which system is on board an aircraft, comprising - at least one identification device (10) able to read user identity information contained in a personal card, and - an avionics computer (1) comprising means (11) for managing access rights, able to authenticate the user and to determine, as a function of the identity of the user, rights of access to the avionics information.
