Abstract (en)

[origin: EP2145700A2] The hot pressure washer has housing (1) that has a high pressure pump (11) for producing high pressure process water, which is cooled by a fan motor (12). Two housing chambers (8,9) are connected with two fans (13,22) in air tight manner, where two fans are arranged behind one another in series. The high pressure pump is arranged with cooled air pump fan in former housing chamber of the housing.
