Abstract (en)
An electrical trimmer as proposed comprises a pivotable trimmer head (10a) and an actuation unit (20) having a movably mounted actuator (21) being provided to be moved by a user, the actuator (21) being mechanically linked with the pivotable trimmer head (10a) such that the pivotable trimmer head (10a) is pivoted at least between a first angular operating position and a second angular operating position when the actuator (21) is moved from a first actuator position to a second actuator position.
