Abstract (en)
[origin: EP2146239A2] A liquid crystal display includes a light guide plate (141) guiding light, light sources disposed adjacent to at least one side of the light guide plate, and a lower receptacle (170). The lower receptacle includes a bottom plate on which the light guide plate and the light sources are disposed, a lower receptacle side wall extending in a direction substantially perpendicular to the bottom plate and from an edge of the bottom plate, and an upper plate (173,174) extended from the lower receptacle side wall and substantially parallel to the bottom plate. The upper plate does not overlap the light guide plate in a plan view of the liquid crystal display.
