Abstract (en)

[origin: WO2008142282A2] The present invention relates to a garment (1) such as a pair of trousers, a pair of shorts, a skirt, a dress or a pair of bermuda shorts, intended to be worn around the waist of an individual over an undergarment (30) and comprising a belt part (3), characterized in that it comprises a tab (10) underneath the belt part (3) and defined by two lateral incisions (11), said tab (10) being connectable releaseably to the belt part (3) in such a way that it can occupy with equal convenience either a first position in which it passes locally in front of a portion (32) of the undergarment (30) in order to conceal it, or a second position in which it passes behind the portion (32) of the undergarment (30) in order to make it visible.
