Abstract (en)
[origin: WO2008132471A1] The invention relates to the provision of an item of furniture, and a method of forming the same. The item has a load bearing frame (7) and a series of panel members (37) secured to the same and supported thereby. The frame comprises a series of elongate members (9) joined together with apertures therebetween which are at least partially closed by one or more of the panel members received and engaged in position with respect to the frame to thereby form the item of furniture.
