Abstract (en)

[origin: EP2147749A1] The separator element (110) has two single-piece shanks (142,144) and a connecting section (146) arranged between the two shanks. The shanks are formed in single-piece with the connecting section, and have flush openings (148,150) in an area spaced from the connecting section for a passage of a clamping element (120).
