Abstract (en)
[origin: EP2147890A1] The ground conveyer has a framework (10), at which a drive component and a load unit are attached, where the load unit has a lifting attachment adjustable in the height. A framework section or a framework plate (16) is firmly connected at external side with the framework, which has an outside contact surface and holes. A wheel arm plate (14) is connected with wheel arms (12). A perforating is provided, which results in a hole pattern and has an internal contact surface and pair of adapter blocks with two contact surfaces.
